

ST. FRANCIS HOSPITAL
& MEDICAL GROUP

January 22, 2016

Dear Noon Kiwanis,

On behalf of the OSF St. Francis Hospital & Medical Group Foundation, thank you for your support of this year's New Year's Eve Liferides. Your support is truly appreciated and helped make our highways and roads safe on this holiday typically associated with reveling and alcohol consumption.

In the 32 years since Liferides was introduced in Delta County, there have been no alcohol-related traffic accidents or fatalities on New Year's Eve. While we do not presume to take full credit for that wonderful statistic, we know the program plays a significant role. More than 500 people received a Liferide during the evening.

Again, I thank you for your generosity and support of this lifesaving program.

With warmest regards,

Kacie Hanchek, Manager
Community Relations & Development
